

THE WORLD LEADER IN  
FUME EXTRACTION TECHNOLOGY

## PP Base LEF 12

PrintPRO

Recommended by Roland DG as the choice of extraction with the LEF Series printers.

BOFA's PrintPRO Base LEF 12 is designed exclusively for Roland DG to remove odours generated during the printing process.

The design allows the Roland LEF12 printer to sit on top of the extractor as a cart or bench, and specially formed dimples ensure a perfect alignment and secure location. Manufactured to run efficiently and quietly in an office environment, colour matched for good looks, with practical internal storage and castors for portability, the PrintPRO Base LEF 12 is the perfect companion to the Roland LEF12 Printer.

### STANDARD FEATURES:

- Colour matched to the Roland LEF12 printer
- VOC gas sensor (Volatile Organic Compound)
- Auto sensing voltage (115-230v) for global use
- Digital speed control
- Extended life carbon for low cost of ownership
- Specially treated carbon for safe containment of print fumes
- Doubles as cart/bench with locating dimples for security
- Low noise level
- Castors for portability
- Internal accessories shelf
- Extraction hose kit included

Fume Extraction for the Roland LEF 12 printer.
